B.S., SPECIAL EDUCATION

WHY CHOOSE SPECIAL EDUCATION?

By pairing a rigorous curriculum with valuable experiential learning opportunities, USJ’s renowned program prepares students for a meaningful and high-impact career. Entering the field as effective educators and advocates for all children, students have the skills necessary to be change agents who embrace the challenge and opportunity of teaching and learning in today’s diverse classrooms.

CAREER OPPORTUNITIES

Special Education majors learn to teach effectively in a changing global environment, with the foundation necessary to pursue advanced degrees or careers as:

» Special Education Teachers
» Early Intervention Specialists
» Early Childhood Teachers

» Special Education Advocates
» Speech and Language Pathologists

Gain experience in K-12 classrooms at the on-campus lab school

Enter the profession with educational expertise, as well as personal and professional confidence

Develop an understanding of educational legal policies and ethical principles
ACADEMIC DISTINCTIVENESS

As Special Education majors, students combine coursework, internships, and other experiential learning, preparing them to:

» Work with a wide range of ages and disabilities
» Serve students in public and private settings
» Demonstrate a thorough understanding of law, specialized curriculums and instruction, adaptations, assessment, and more
