

In response to the increased rate of positive COVID-19 cases on campus and the region, USJ is reinstating two restrictions that were lifted in March to minimize transmission rates of the virus as quickly as possible. Effective April 9 through the remainder of the Spring semester, the following restrictions will be reinstated:

1. **Students are not allowed in any residence hall except the one they live in.** Non-residential students may not enter any residence halls.
2. **Students may not bring non-USJ guests into any campus building.** The campus remains closed to the public.

Everyone's efforts to comply with safety guidelines have enabled us to have one of the most in-person college experiences available in our area, however now we must reinstate a couple of restrictions to remain vigilant and agile in response to the surge in the positive COVID-19 case rate.

If you have any questions: Residential students, please contact housing@usj.edu or your RA. Commuter students, please contact studentaffairs@usj.edu.
