UNIVERSITY OF SAINT JOSEPH

» THINKING ABOUT GETTING INVOLVED IN  
RESEARCH, BUT NOT SURE WHERE TO START?

## Interdisciplinary Research Panel

Join us for a conversation with USJ students and faculty who are actively working on research together. In this panel, student-faculty pairs from different fields will share what it's really like to get involved in research at USJ. You will hear how students first connected with faculty mentors, what their research experiences look like day to day, and how they balance research with classes and other commitments.

Whether you are just curious or already thinking about reaching out to a professor, this is a great chance to hear honest perspectives, ask questions, and learn how to take the first step.
